

GENERAL TERMS AND CONDITIONS

- o Segmentation. If a Shipper is requesting to segment its Market Area service agreement or segment its Field Area service agreement by contract, the following information is required:
  - 1. The contract number being segmented, including the applicable Rate Schedule.
  - 2. MDQ requested for segmentation purposes by point. If TF service is requested, Shipper must specify MDQ for each Throughput Service(s) (TF12 Base, TF12 Variable and TF5) and the Total Aggregate MDQ.
  - 3. Requested term of service for capacity being segmented.
  - 4. The request must include for Market Area segmentation:
    - a. If a service agreement has more than one receipt point requests should include the desired Primary Receipt Points for the Access Segment; and
    - b. If a service agreement has more than one delivery point the requests should include the desired Primary Delivery Points for the Delivery Segment.
  - 5. The request must include for Field Area segmentation by contract:
    - a. If a service agreement has more than one receipt point, requests must include the desired Primary Receipt Point(s) for the capacity being segmented (e.g., between MID 7 and MID 8) or for Combined Service the Field Area and the Market Area. For example: the Primary Receipt Point for forwardhaul service in between MID 7 and 8 is the 7B Segmentation Point and for Combined Service the F/M Demarcation segmentation point; and
    - b. If a service agreement has more than one delivery point, the requests must include the desired Primary Delivery Point(s) for the Delivery Segment. For example: the Primary Delivery Point for forwardhaul service between MID 7 and 8 is the 7B Segmentation Point and for Combined Service the F/M Demarcation segmentation point.
