

GENERAL TERMS AND CONDITIONS

30. BILLING THROUGHPUT QUANTITY

- A. Single Shipper. The Billing Throughput Quantity ("BTQ") shall be the volumes actually delivered for a Shipper. For monthly billing purposes, the determination of the BTQ for a Shipper transporting gas under more than one Throughput Rate Schedule shall be in the following order (Default Order) unless agreed to otherwise by Northern and the Shipper prior to the close of business of such production month:
- (1) volumes, including overrun volumes, scheduled for delivery under Rate Schedule TFX, if any;
 - (2) volumes, including overrun volumes, scheduled for delivery under Rate Schedule TI, if any;
 - (3) volumes delivered under Rate Schedule(s) TF in the following order:
 - (i) scheduled overrun volumes, if any, and
 - (ii) up to the MDQ's of the TF services.
- B. Multiple Shippers. For billing purposes, to the extent Northern is transporting gas to a Point(s) of Delivery for more than one (1) Shipper, the Shipper shall cause the party receiving the gas for Shipper's account at such Point(s) of Delivery ("Receiving Party") to advise Northern of the priority between Shippers in which said Receiving Party will receive the other Shippers' scheduled gas. If Northern has not been advised of a priority, the Default Order in "A" above shall apply. Provided however, if the Receiving Party is also a TF Shipper, then, for billing purposes, gas being transported and delivered at the subject Point(s) of Delivery for the Receiving Party Shipper's TF Agreement shall be deemed to be the last transportation volumes scheduled through the meter (last-through-the-meter methodology) preceded by any other agreements in the Default Order unless agreed to otherwise by Northern and the Receiving Party prior to the close of business of the production month, or unless the Receiving Party has chosen to provide the measured volumes as stated below in paragraph E.
- C. In the event there is more than one service agreement under any rate schedule, for purposes of billing in (A) and (B) above, the volumes shall be allocated pro-rata to each service agreement based on scheduled volumes, unless agreed to otherwise.
