

48.5 SOL or Critical Day at a Point or Branchline

SOL or Critical Day at a Point or Branchline. When an SOL or Critical Day is called at individual point(s) or on a branchline(s) and the affected Shipper(s) have nominated and scheduled volumes at a zone level, the DDVC variance will be the difference between the individual point MDQ as set forth on Appendix B of their Service Agreement and the actual deliveries for each point in the affected area. Small Customers retain their use of tolerance and positive DDVC levels as set forth in Subsection 48.2, Subpart A.4 above and SMS when an SOL has been called to a point or Branchline level and Small Customers are not subject to the foregoing limitation.
