Shipper shall pay a negotiated reservation rate equal to \$0.60/Dth/day multiplied by the MDQ multiplied by 30.4 (Negotiated Reservation Rate). In addition, Shipper shall pay a commodity rate equal to the maximum rate set forth in Northern's FERC Gas Tariff, as revised from time to time.

In addition to the above rates, Shipper shall provide any applicable fuel use and unaccounted for.

The Negotiated Reservation Rate is applicable to the receipt and (or) delivery points (POI) listed. If the negotiated reservation rate is lower than the maximum reservation rate in Northern's FERC Gas Tariff, Shipper agrees if any points not listed are used on either a primary or alternate basis, including use by any shipper acquiring the capacity through capacity release, the Negotiated Reservation Rate will not be applicable and Northern's maximum tariff rates will apply to the entire contract MDQ for the month that any points not listed are used.

In addition to the above rates, Shipper shall pay all current and future applicable reservation and commodity surcharges.
