

GENERAL TERMS AND CONDITIONS

On-Site Gas Chromatograph. On-site chromatograph sampling directly from a representative source and analyzing continuously.

System Gas Chromatograph. Gas chromatograph sampling directly from a representative source and analyzing continuously. The results are then applied to all other locations on the system that are representative of the sample source.

Spot Sampling Frequency. Mutually agreed upon frequency (monthly, quarterly, etc.)

Meter. Gas delivered by Northern to the Shipper/Purchaser shall be measured by an adequate meter or meters of standard type, installed, operated and maintained by Northern at its sole expense. In the alternative, the responsibility for meter installation, operation and/or maintenance may be as mutually agreed upon between the parties. When more than one meter is used for measurement of gas delivered to the Shipper/Purchaser, the term "Meter" shall be construed to mean and include all such meters used for that purpose.

Receipt and Delivery Point Operator Flow Information Systems. Receipt and Delivery Point Operators may, subject to Northern specifications and at the operators' sole expense, install flow information systems at Northern's facilities sufficient to provide daily flow information. Such equipment shall be operated and maintained as agreed to between Northern and the Operator. Receipt and Delivery Point Operators who have installed flow information systems may provide such information to Northern in accordance with the established parameters, for use in compiling daily imbalances and daily service charges, subject to reasonable verification. To the extent the facilities become outdated and are no longer in compliance with Northern's specifications, the Receipt and Delivery Point Operators shall be so notified by Northern, and may install replacement facilities. If the replacement facilities are not installed within a reasonable period of time, Northern will discontinue accepting data from the outdated facilities and begin using Northern's data.

Equipment Testing. At reasonable intervals, Northern shall test and adjust to within measurement tolerances all equipment used in making the determination of factors used under the provision of this Section. Such equipment shall, at all reasonable times, be subject to test or an inspection by a representative of the Shipper/Purchaser in the presence of a representative of Northern.

The Shipper/Purchaser shall test, at reasonable intervals, all Shipper/Purchaser equipment used for measurement of gas where such measurement enters into the measurement computations and shall at the time of the tests, adjust such equipment to record accurately. Northern's representative shall have the right to witness such tests, or at reasonable times at Northern's election, to test and inspect such equipment in the presence of the Shipper/Purchaser.
