

147/ For the period 11/01/2013 through 03/31/2016, Shipper shall pay a volumetric reservation rate equal to \$0.80/Dth multiplied by the daily quantities delivered pursuant to this Agreement during the months of November through March (winter). However, Northern shall receive a minimum of \$400,000 in revenue from reservation and commodity charges, SMS charges, authorized overrun and IDD revenues for each winter season under this Agreement. Northern shall have the unilateral right with 60 days advance written notice to convert this volumetric entitlement to maximum tariff rates. If Northern provides such notice, Shipper shall have the unilateral right to reduce the MDQ of this Agreement to no less than 500 Dth/day by providing Northern written notice within 30 days of Northern's notice. Such reduction will be effective at Shipper's election as of the date of Shipper's written notice or 60 days following the date of Northern's notice.

In addition, Shipper shall (i) pay a commodity rate equal to the maximum commodity rate provided in Northern's FERC Gas Tariff as revised from time to time, (ii) provide any applicable fuel use and unaccounted for, and (iii) pay all FERC-approved surcharges applicable to the service provided hereunder.

In consideration for the above rates, all gas transportation services for Shipper's Plants shall be provided for under this Agreement. If another agreement is used to serve these markets, the rates granted herein shall be terminated for any month in which another agreement is used and Northern's maximum rate will apply. Shipper's use of fuel oil is not precluded herein.

The negotiated rate stated herein is applicable to the receipt and (or) delivery points (POI) listed. Shipper agrees that if any other receipt or delivery points are used either on a primary or alternate basis, the rates set forth herein will not be applicable and Northern's maximum tariff rates will apply for the entire contract each season that any points not listed are used.

148/ For the period 12/01/2013 through 12/31/2013, Shipper shall pay a daily charge equal to the arithmetic value obtained from the formula (X) times (Y), where (X) = the Midpoint price from "Gas Daily" Northern, demarc minus the Midpoint price from "Gas Daily" Cheyenne Hub receipt minus 0.08, but in no event less than zero, and (Y) = 0.75, multiplied by the contract MDQ. The monthly charge will be the sum of all daily charges within the month.

In addition to the above rates, Shipper shall provide any applicable fuel use and unaccounted for.

The charges set forth above are applicable to the receipt and delivery points (POI) listed. Shipper agrees that if any receipt or delivery points not listed are used either on a primary or alternate basis, the charges set forth above will not be applicable and Shipper shall pay the higher of the charges set forth above or Northern's maximum tariff rates each day for the entire contract MDQ for the month that any points not listed are used.
