4. INTERRUPTION OF SERVICE

Firm service under this Rate Schedule shall have the highest scheduling priority of Northern's storage services. In addition, service under this Rate Schedule shall be subject to interruption under the terms of the upstream or downstream Firm or Interruptible Throughput Service Agreement(s). Any limitations imposed by such Throughput Service Agreements shall have precedence over Shipper's rights to service herein.

In the event that Northern is required to allocate capacity on its system, service under this Rate Schedule may be constrained by the allocation of capacity to the applicable Throughput Service Agreement.

5. OFFERING OF SERVICE

Available FDD capacity will be posted on Northern's Internet website. Northern shall accept requests for service under this Rate Schedule for FDD quantities available. Such requests must contain information required to initiate service as defined in Section 27, "Information Required for a Request for Service," of the "GENERAL TERMS AND CONDITIONS" of this Tariff. Priority for service shall be based on the price and term offered by the Shipper. For the purposes of allocating capacity, Shippers willing to pay more than the maximum tariff rate will be considered to be paying the maximum tariff rate. Northern, upon receiving such requests including all information required to initiate service, shall notify Shipper of the quantity of FDD capacity available and any inability to provide the service requested. Any allocations required as a result of receiving matching offers will be on a pro rata basis.
