Notwithstanding the above, in the event of an outage on Northern's pipeline system that impacts Shipper's ability to schedule any primary receipt and delivery points, Shipper may, without incurring the additional charges above, use either (1) any Field Area receipt point in MIDs 8 through 16A for delivery to NNG Field/Mkt Demarcation (POI 37654) or Demarc Def.-Delivery (POI 62389) or (2) any receipt point listed for delivery to any Field Area delivery point.

If no such point is available, then Shipper will not pay more for the Market Area services hereunder than if reservation charge credits under Section 22 of the General Terms and Conditions of Northern's FERC Gas Tariff would have applied. The additional charge of \$0.15 Dth/day above may be reduced in the Field Area correspondingly to any reduced quantities in the Market Area.

In addition to the above rates, Shipper shall provide any applicable fuel use and unaccounted for.
