Northern Natural Gas Company
FERC Gas Tariff
Sixth Revised Volume No. 1

Eighth Revised Sheet No. 66B.29
Superseding
Seventh Revised Sheet No. 66B.29

214/ For the period 09/18/2018 through 10/31/2018 the total daily charge for the Contract MDQ shall be the MDQ multiplied by the arithmetic value obtained from the formula [$0.01 plus C times (((X minus Y) times B) minus $0.01)] (rate) where (X) = the Midpoint price from "Gas Daily" Northern, Ventura; (Y) = the Midpoint price from "Gas Daily" Northern, demarc; (B) = 0.90; (C) = scheduled delivery % of the contract MDQ. However, in no event will [((X minus Y) times B) minus $0.01] be less than $0.00. The monthly rate will be the sum of all daily rates.

Shipper's charges above may be reduced, in Northern's sole discretion, for any quantity that is unable to be delivered up to the MDQ.

In addition to the above rates, Shipper shall provide any applicable fuel use and unaccounted for.

The rate set forth above is applicable to the receipt and delivery points (POI) listed. Shipper agrees that if any other receipt or delivery points are used either on a primary or alternate basis, including the primary delivery points set forth in the Appendix A, Shipper shall pay the formula rate set forth above plus $0.24/Dth each day for any quantities received or delivered at any points not listed.
